To Whom it may Concern,

In brief, I am writing to express my objection to the relaxation of FCC regulations governing the content of television shows. It is damaging not only potentially to children, but anyone who watches it as well. If a viewer wishes to watch pornography, excessive violence, or generally poor behavior, s/he can see plenty of it on cable.

It is unacceptable to do this. We the American people own the airwaves, and we don't want this.

Regards,

Brendan Carruthers
